Minutes

Location: Forrester Hall Room 308

Date: 1/29/2026

Time: 1:30 PM

Attendance

Max Henderson

Caleb Grinton

Sean Morrow

Ryan McLaren

Agenda Items

1. Greet Sean and Ryan

   Brief discussion with Sean and Ryan.

2. Demo of product

   Max and Caleb showcased the demo to Sean. The demo went well, and showcased logging in as both an admin and a user. The demo was successfully hosted on Vercel.

3. Go over project board

   Sean went over the project board with Max and Caleb. Sean noted that the project board was up to date and was being utilized adequately. Max and Caleb need to set up for the next sprint.

4. Discuss commit history

   Max and Caleb spoke with Ryan about our git commit history and our usage of pull requests.

5. Wrap up

   Max and Caleb discussed what to do going forward, and how they want to tackle this upcoming sprint.

Action Items

1. Set up for next sprint

   As noted when going over the project board with Sean, Max and Caleb need to set up for the next sprint.

2. Use feature branches going forward

   Ryan noted that the amount of commits, pull requests and communication looked adequate, but noted that the workflow could use some work. He recommended that we checkout from main into "feature branches" rather than doing all our work in a generic development branch.

3. Implement role functionality for users with better-auth

   As discussed in the wrap up, Max needs to redo the users table to include a role section. This will allow the web pages to display elements dynamically based on the users authority.
